2014 IN WIN BRAND STORY

www.inwin-style.com

The distinctive, lively red In Win logo, derived from the Chinese calligraphy "如" symbolizes "如意" or "satisfaction, according to one's wishes". With no sharp edges, the logo also portrays a state of energetic harmony between technology and art. Thus, our slogan "Contemporary and Innovative" serves as the foundation of not only our product development but also our attitudes in serving and catering to our strategic partner's wishes. We take the "im" out of "impossible"...

...A brand without persistence is only a name.
